

# Privacy Guides for X

## Browser:

1. Log in to your child's X account.
2. On the left-hand side menu, select the **More** icon.
3. Select **Settings and Privacy**.

## Mobile:

1. Log in to your child's X account.
2. Tap on the **profile icon** at the top-left of the screen.
3. Select the **Settings & Support**, then **Settings and privacy**.

## Privacy and Safety Settings:

1. In the **Settings and privacy** menu, locate and tap **Privacy and safety**.
2. Click on **Audience and tagging** and turn on **Protect your posts** and **Protect your videos**. Turning these settings on will limit what information others can view and any videos your child may post.
3. Go back to the **Privacy and safety** menu. Tap on **Content you see**, then **Search settings**. Turn off **Hide sensitive content**.
4. Go back to the **Content you see** menu. Tap on **Sensitive media**, change the three settings (**Graphic violence**, **Adult content**, and **Other**) to **Never show this**.
5. Go back to the **Privacy and safety** menu. Tap on **Direct messages**. You can decide who can message your child, whether audio or video calling is enabled, whether read receipts are enabled, and more.
6. Return to **Privacy and Safety** and select **Discoverability and Contacts**. Here, you can select how other users may be able to find your child on X.
7. Return to **Privacy and Safety** and select **Data sharing and personalization**.
  - a. In this section you can adjust **Ad Preferences**, **Inferred Identity**, and **Location Information**.
